Title: Recent advances in real-time operating systems

Team: Fort Lupton

Evaluation Novelty/Interest: 4 Technical/Research: 4 Presentation: 4

Comments:

- The presentation and execution were interesting and kept me engaged. They kept the presentation information brief yet in depth. They did a great job summarizing their project. I also like how they switched the slide colors to indicate when different people are presenting.

Title: An Evaluation of Disaster Recovery Using Virtualization

Team: Monument

Evaluation Novelty/Interest: 4 Technical/Research: 4 Presentation: 4

Comments:

- The information discussed and given through the presentation was very insightful. This team did a great job teaching a subject that can be difficult to understand for many people. I thought it was interesting to learn about some of the viable solutions for disaster recovery.

Title: Blockchain and Cryptocurrency

Team: Lafayette

Evaluation Novelty/Interest: 4 Technical/Research: 4 Presentation: 4

Comments:

- Of the presentations I watched, this one was my favorite. The team did a great job with transitions, information, and I learned a lot. I like that they described their topic and research clearly. They did a good job talking about their topic in the appropriate level of technicality for their audience.
